

# GROVE STREET - SONOMA COUNTY EVACUATION ZONE 6D1

## EMERGENCY TERMINOLOGY

In the event of an evacuation, local emergency officials will use SoCoAlert to reach you. You must register for emergency notifications at [socoalert.com](http://socoalert.com) to receive evacuation notices by phone call, text, and/or email. Evacuation notices sent through SoCoAlert will use the following terminology:

**EVACUATION ORDER:** You must evacuate immediately due to imminent threat to life.

**EVACUATION WARNING:** There is potential threat to life and property within a given time frame. Begin preparing yourself, your animals, and your property for a potential evacuation order.

**SHELTER-IN-PLACE:** Stay secure at your current location. This may be required when evacuation is impossible, too dangerous, or unnecessary.

## EVACUATION TIPS

**What to wear?** Wear goggles, leather gloves, and heavy shoes/boots; protect skin with long cotton clothing; protect airway and face with an N95 mask and bandanna. Wear a hat to protect hair from embers.

**Where to go?** Avoid hillsides. Head for a valley floor by car, away from the fire if possible.

**Just in case...** Go on foot or bicycle only if no other option exists. Sheltering indoors or in a car is usually safer than being exposed outside.

Never evacuate uphill, on fire roads, or into open spaces where there is unmaintained vegetation.

Don't panic in traffic! Inside a car on pavement is one of the safest places during a wildfire.
